TechConnect Summit 2026
Post-Event Attendee Feedback & Engagement Data

Event date: March 15, 2026
Location: Chandigarh
Survey responses: 420 attendees

1. Attendee Satisfaction

Metric	Result
Overall satisfaction	92%
Session quality	89%
Networking experience	94%
Venue experience	87%
Likelihood to attend again	91%

2. Attendee Feedback Highlights

• **Practical AI content:** Attendees highlighted AI-focused sessions as immediately useful for professional work.

• **Networking:** Networking received very positive feedback, with requests for longer dedicated networking periods.

• **Session timing:** Some popular sessions became crowded; attendees suggested larger rooms or duplicate sessions.

• **Workshop demand:** Respondents requested more hands-on workshops and live demonstrations.

3. Identified Gaps

• Popular AI sessions had higher demand than available seating.

• Some attendees wanted more time for direct interaction with speakers.

• Some respondents requested clearer session schedules before the event.

4. Recommendations for the Next Summit

1. Increase practical AI/ML workshops.

2. Allocate additional seating for high-demand technical sessions.

3. Extend structured networking time.

4. Add more live demonstrations and hands-on activities.

5. Publish the detailed session schedule earlier.

Purpose: Event-feedback source document for testing multi-document analysis in the AI Document Assistant.
